

Friends of Mangarakau Swamp invite you to their annual weekend working bee and AGM. For the working bee we plan to do 'fill in' planting. The plantings from two years ago are doing very well and John and Bron have been keeping them well released. It will be very rewarding to add more plants where there are gaps and there will be plenty of time for relaxation as well. It will be a opportunity to enjoy the improvements we have made to the Field Centre, have a look at the revamped information in the hall and walk the new Wattle Point track.

The AGM will be held after a shared lunch on Sunday and usually only takes an hour or so. It is a great opportunity for you to hear about how the swamp is managed and all the achievements of the past year.

We will be at the swamp from Friday evening and you are welcome to stay over for the whole weekend or just come for either day. If you stay over you will need a sleeping bag and food for breakfast, lunch and shared evening meals. Click [here](#) for details of how to get there.

For more information contact Robyn [robyn@robyn-jones.com](mailto:robyn@robyn-jones.com) or 03 5248266.

Event Dates:

Saturday, April 9, 2016 - 08:30 to Sunday, April 10, 2016 - 16:30
